The liberal politicians, led by Hillary “take-from-you” Clinton, John “tax-and-spend” Kerry, and John “ambulance-chaser” Edwards, are up to their same old tricks.

Only now they aren’t even trying to hide it.

Think I’m kidding? Just take a look at this frightening, but revealing quote from June 28, 2004:

“We are going to take things away from you on behalf of the common good.”

These words were spoken by none other than Hillary Rodham Clinton, the probable Democratic presidential candidate for 2008. And it scares me to death.

They want to gouge you with more taxes. Lots more.

The liberals would like nothing better than to turn the government into a massive welfare system with special programs for every liberal special interest group they know. And they want YOU to pay for it. Here’s what this means to you:

They want YOU to fund their hand out programs for lay-on-the-couch-all-day-and-watch-TV bums.

They want YOU to cough up YOUR money to pay for abortion-on-demand clinics.

They want YOU to foot the bill so they can pass out condoms in YOUR kids’ schools ... without your permission.

They want YOU to fund government-managed (or mis-managed) health care for everyone.

They want YOU to support the no-good welfare mooches who would rather make babies out of wedlock than get a job.

And make no mistake: for the liberals, it's not about the common good. It's not about the compassion they love to talk about.

It's about regaining the power they so desperately crave ...
by bribing every low-life leech they can find to vote for them.

They will stop at nothing. If you don't take steps now, they will rob you blind.

We're going to CRUSH these liberals' plans! We're going to continue to make huge, triple-digit investment profits!

No doubt you are wondering, "How do I safely build and grow my wealth in the face of this liberal onslaught on my money?"

All the exciting, profit-filled answers are in a blockbuster report I want to rush you ABSOLUTELY FREE, called "*Extraordinary Wealth ... How to Prosper and Keep the Liberals From Robbing You Blind*".

We are the ruthless and wealthy “Warlords” of today’s financial world!

Back in the 19th century, ruthless fighter-entrepreneurs used profiting methods so aggressive, daring and cunning that all of 19th century China was at their mercy. These were the Taipans.

Taipans used two primary strengths -- knowledge and speed -- to outmaneuver anyone or anything that got in their way. For knowledge, they developed bands of informants around the world who fed them critical information. For speed, they relied on super-fast clipper ships. No one could compete with their knowledge or speed.

Using their bold, war-like tactics, the original Taipans built empires and fortunes in tea, opium and silver. Even more important, they managed to hold on to their great wealth amid almost constant chaos. Billion dollar companies like Jardine, Swire and Hong Kong and Shanghai bank were started by Taipans.

Today our TAIPAN investing strategies are based on using the same bold, cut-throat approach -- and the same advantages of knowledge and speed -- to help you build your fortune quickly and safely.

Our team of ruthless professionals literally probes the world for hidden wealth-building information.

Then, using internet, email and regular mail, we get this information to you fast -- before anyone else has a clue.

The result is our proven record of being dead-on about our investment advice so you make extraordinary profits. Call XX-XXX-XXXX today to get your FREE Report and start reaping the huge profits that come with TAIPAN investing.

because of the unique, aggressive, opportunistic investing approach we use ... but because over the past 16 years, we’ve PROVEN IT WORKS!

We utilize a world-wide network of highly-placed contacts who ask the tough questions ... and squeeze out the answers that can put your profits far beyond those of most investors.

We dig. We pry. We’re not afraid to get our fingernails dirty. We scrape way below the surface ... and we make money. Lots of it ... so people like you can become filthy rich.

TAIPAN has made many people very wealthy. Surprisingly, many of these people began with very little money and very little experience. So how did they become so wealthy? They simply followed the advice in our monthly TAIPAN newsletter, our daily web-site updates, and our instant email alerts.

And with gains from companies like China Yuchai (CYD), where **\$10,000**

turned into \$36,800 in 8 months ... or Nortel (NT), where \$10,000 became \$30,400 in 3 weeks ... or Vitesse (VTSS), where \$10,000 grew to \$30,600 in 1 month ... many TAIPAN members have literally become millionaires!

And our successes just keep multiplying. With our control over the sources of the most vital, up-to-date, "inside" information, we expect to help create many more new millionaires in the next few years. And we'd like you to be one of them.

The group that guided us to 6000% PROFIT on Taser International now says, "Get Rich While You Defeat Terrorism Too!"

Everyone would love to see every terrorist wiped off the face of the earth. Now there's a virtually foolproof way to help that happen ... and multiply your money many times over.

Our sources tell us that there are several companies dedicated to creating breakthrough anti-terror systems that will astonish you ... and squelch terrorists in unimaginable ways.

As far as business goes, it's no secret that 145 major American cities spend US\$70 million every WEEK on homeland security. But real beauty behind this profit opportunity is that there is a major shortage in the shares of the stocks of these anti-terror companies. By pushing demand to record levels, this shortage has already turned US\$50,000 into US\$3.2 Million in one year.

Now, the same source who turned TAIPAN readers on to Taser International ... and 6000% PROFITS ... has revealed the next 10 big-profit, homeland security plays you must have in your portfolio.

Each stock is now trading for less than US\$20 and is estimated to go up 1,275% in the next 12 months.

Our researchers have compiled all these recommendations in an exclusive Members Only report called "Homeland Security Winners".

Refreshingly unique, hardball investment advice that builds your wealth.

TAIPAN is true, hardball investing. We never take anything at face value. We couldn't care less about what anybody else says, or thinks. We find out ourselves.

I like to think of myself as a spider in the middle of a web of information. I am constantly directing TAIPAN's vast network of sources, contacts, and correspondents, to identify the newest and most promising investments for you.

TAIPAN is refreshingly unique -- definitely NOT another "me too" service. You won't find TAIPAN's stock and investment recommendations anywhere else. Not in the newspaper; not online, and not from your broker. We know there are plenty of superb profit opportunities out there no matter what the liberals say. And we never stop scouring the globe to find them for you.

This is how empires were built by the original Taipans of old, and how fortunes are built today. You must be the most aggressive, the fastest and have the most knowledge. TAIPAN is those things, and more.

In fact, when you become a TAIPAN investor, I EXPECT you will soon achieve financial independence. I EXPECT you will be among the new class of 21st century millionaires. And the best part . . .

You will grow your wealth no matter what the liberals try and pull. Your own portfolio will prove that our unique profit strategies build wealth no matter what condition stock markets, the economy, banks or governments are in.

**Recession? Terror? Not enough jobs? Market volatility?
We say, "Who cares?"**

TAIPAN has made our readers money in nearly every country in the world. Our contacts penetrate remote outposts and war-torn regions. And yes, we've made money from some very unfortunate situations. To us, when everyone else smells trouble and sees panic in the streets, we see opportunity.

- ✓ When we hear of war and destruction ... we are there unearthing profit opportunities.
- ✓ When the liberals cry about their social programs ... we are finding out who's in their back pockets.
- ✓ When we hear of people in distress ... we are there looking for who has the solutions.

TAIPAN TIP

Build incredible wealth from America's next "gold rush"!

In the 1800s Americans headed west by the thousands in hopes of making their fortune in the gold rushes.

Today, Americans are being lured by the millions with the same hopes of finding fame and fortune. Only this time, the lure is casinos.

Over 53 million Americans spent \$27 BILLION on trips to gambling venues in 2003. And the numbers continue to climb.

Furthermore, as the economic recovery continues, more and more baby boomers are retiring with extra cash to play with. And slot machines are one of their favorite toys.

It used to be that the only place for gamblers to play were Vegas or Atlantic City. But those days are long gone. First slot machines expanded to Riverboats and Indian casinos in a variety of states. Then states like Delaware and West Virginia saw them as a way to gain state revenue without raising taxes.

Now Pennsylvania recently passed a law calling for 14 sites to install up to 61,000 slot machines. And neighboring states who can't bear to see all this potential revenue strolling across their borders are soon to follow suit. The result will be an explosion in demand for gaming machines and equipment.

We can't help but recommend you consider heading to Las Vegas for huge profits. Not at a casino, but by investing in a particularly undervalued Las Vegas gambling machine maker.

We've posted all the information on this no-gamble play on our web site for TAIPAN members only. Don't miss out. Call XXX-XXX-XXXX now!

It's not that we enjoy trouble. It's just that we are committed to staying several steps ahead of the investment world. And we know that every "problem" is really the door to an untapped world of exciting investment opportunities that can result in extraordinary profits for you.

That's the secret to our astounding, proven success. And yours.

As you can see, we don't limit ourselves ... or your profits! Each month our team of TAIPAN investors reveals the very best stocks you can buy -- inside or outside the United States. Our TAIPAN experts scour the globe to investigate whoever and wherever we suspect there are stocks that meet our stringent criteria for low risk and extraordinary profits.

100% legal “insider information” reduces risk and increases profits!

The only information most investors get is from an annual report or an online news/broker service. By the time it reaches these sources, it's growing whiskers. Solid “advance” information is difficult to come by. And if you happen to learn anything from “company insiders”, you run the risk of joining Martha Stewart in jail.

TAIPAN has cornered the market on industry insiders. We are plugged into the people who have the latest facts and the word from the street -- where the REAL knowledge is. TAIPAN is your access to this 100% legal, but much deeper, level of investment information.

Instead of waiting for the “news”, you will get your early information from the scientists, engineers and government officials that are closest to the money. By the time Wall Street gets wind of what's really going on, you will have already pocketed your huge profits.

With access to this kind of hard-to-find information as a TAIPAN subscriber, you don't have to GUESS what the stocks will do ... you will KNOW it. This means you will be poised to invest with more confidence, less risk, and make greater profits no matter which way the stocks are moving.

Make no mistake: this kind of high-level, inside information is 100% safe, legal and low-risk. We simply dig until we hit the bedrock of truth and turn this information into breakthrough profit opportunities for you. And you get to take advantage of it at the very best time -- BEFORE everyone else figures it out -- to reap document profits like these:

**What we learn, you learn.
When we profit, you profit.**

For over 16 years, we have honed our skills to generate huge profits from investments that the financial newsletters, magazines, newspapers or internet sites have never even heard of.

They are slow and uninformed. They all carry the same information that barely scrapes the surface of what you really need to know. By the time the press is ballyhooing them, it's too late. But our TAIPAN "insider sources" dig them all out for you.

We do whatever it takes -- and go wherever we must -- to make sure our recommendations reap unparalleled profits for you. That's how we've worked for 16 years. That's why we are the most successful and accurate global financial newsletter in the world. The proof is in the profits TAIPAN readers have shrewdly made over the last 16 years. TAIPAN TIP

How our "Blood in the Streets" philosophy helps you make huge profits no matter where the market is headed, or what the liberals do!"

Throughout the 16-plus years TAIPAN has been building people's wealth and making millionaires, our overriding philosophy has been to follow the motto of the late Baron Rothschild: "buy when blood is running red in the streets."

Certainly we've experienced plenty of global and market catastrophes over that time, and we've never backed away. Rather, some of our most striking profits have come from following the "blood in the streets" philosophy. Here's another recent example.

When Indian stocks recently dropped by 17.5% during a political squabble, its market valuation lost as much as US\$40 Billion in one day.

While others panicked, we jumped in to alert our readers, "with blood in the streets after the plunge, we're recommending that you buy the two stocks that sold off the most, HDFC Bank and Satyam Computers Services. Both should bounce back."

Only a day later it was time to take profits and we alerted our readers via email to sell for a 29% and 10% gain respectively.

You can count on plenty of bounces in the US as the liberals grab for power. And you can be sure that TAIPAN will be right beside you guiding you to the stocks that will make huge profits amid the rubble.

Don't be caught without this crucial advice. It's yours right now when you start your risk-free trial subscription to TAIPAN. Call XXX-XXX-XXXX now!

As a serious investor, you can't afford to miss big profit opportunities like these.

If you want a no-excuses way to make extraordinary profits in all economic conditions and all circumstances, no matter who is in the White House, TAIPAN is the ONLY opportunity that makes sense for you.

**Taipan tells guides you to extraordinary profits every step of the way ...
with a documented winning average of 80%!**

Knowing when to buy is only one key to successful investing. Knowing when to sell is just as crucial. The problem with most investment newsletters is they make recommendations; but rarely, if ever, get you the "sell" signal at precisely the right time.

At TAIPAN, we not only follow up on every one of our recommendations; we also give you daily market updates and instant e-mail alerts with critical, short-term trading advice -- be it a tiny buying window or a quick-sell alert.

And we don't get attached to our stocks. When it's time to cash them in for maximum profits we let you know INSTANTLY by email. We don't wait for the next newsletter, or expect you to make a phone call, or even retrieve a fax.

As a TAIPAN subscriber, our instant email alerts ensure you NEVER miss the most profitable time to buy or sell.

After all, timely buying and selling is what makes wealth-building winners. And TAIPAN will help you grow your wealth because we pick FAR MORE winners than losers ... and we tell you exactly when to get out so you pocket the most profits.

For example, last year, out of 81 stocks we recommended, 65 were winners!

That's a documented winning average of 80%! And that means extraordinary profits for YOU!

**Why TAIPAN consistently makes you extraordinary profits --
when others are losing their shirts!**

It's simple! Most investors ... even brokers ... have no idea how the investment world really works. They mistakenly believe that investing is about formulas, logic and trends. They depend on getting their investment advice from the day-late, dollar-short mass media. They put their trust in \$20 software programs, or even worse,

The world is jumping into space exploration ... and this contract-rich US\$1.08 stock could soon skyrocket 20-fold!

Every time George W. Bush mentions that he wants to reignite our space program, we at TAIPAN get excited. Not because we think the prospect of actual space exploration will yield anything meaningful. But because of the press “buzz” surrounding the new space program.

When the President’s program finally kicks into gear, there will be a firestorm of activity and quick investment opportunities. And jumping on cutting-edge potential profits is what we at TAIPAN are all about.

We’ve discovered a little-known company that is perfectly positioned to ride this space “buzz” like, well, a rocket!

It specializes in the conception, design, development, manufacture, integration and operation of space technology systems, products and services.

It has built an impressive list of clients including the Missile Defense Agency and the Air Force Research Laboratory.

Last year, this company was awarded an exclusive follow-on contract to provide the hybrid rocket motor systems for “SpaceShipOne, a new space shuttle program.

Best of all, this company’s stock is currently sitting at a virtually invisible US\$1.08. This stock could soon skyrocket to US\$20 or more.

unscrupulous brokers who are more interested in lining their own pockets than making money for their clients. It’s no wonder so many people struggle with investment disasters.

TAIPAN is NOT like that at all. We know for a fact that no one in the world has the powerful network we do. We rely on dozens of trusted contacts throughout our extensive information network.

And we’re plugged in everywhere. We’ve gleaned research from ivy league technology centers ... American space officials ... European traders ... Far East financial experts ... International inventors ... heads of foreign stock markets ... even teenage computer geeks in Silicon Valley ... whatever it takes.

This information is what has helped many TAIPAN readers become wealthy ... even millionaires!

It’s how we uncover markets that no one else knows about ... or has the guts to enter. And we like it that way. We bring the best opportunities to you. All you have to do is follow our lead to make extraordinary profits like these:

118% PROFIT in 1 month on Internet Capital Group (ICGE)

91% PROFIT in 1 month on Versata (VATA)

78% PROFIT in 1 month on Ciena (CIEN)

57% PROFIT in 3 weeks on Intertrust Technologies Corp. (ITRU)

TAIPAN TIP

Huge profit opportunity from the world's fastest growing and most undervalued telecom.

If you rely on the nightly news, the internet financial sites or your broker, you are likely to be missing out on the biggest secret in international investing: Brazil's economic comeback.

Two years ago, Brazil's economy was all but dead. Its currency, the real, went from 0.37 per dollar to 0.25 per dollar.

When the Workers' Party candidate, Luiz da Silva was elected President, most pundits predicted leftist revolution and total collapse of Brazil's economy. Naturally, word of that kind of calamity peaked our attention.

By implementing Chicago School macro-economic policies, instead of calamity, Brazil has become poised for rapid growth.

Nestled in this rapidly developing country is a small fixed-line telecommunications company that is an offshoot of the once famous Telebras System.

This company has a PEG ratio of 0.80, a forward P/E of 10, and last year it paid a staggering 17% annual dividend.

But that's only the beginning. A recent ruling by Brazil's high court has authorized a recalculation of phone tariffs by as much as 16.5%. Telecommunications were authorized an immediate 7% increase in rates. So this company that is already on fire stands to gain an immediate 7% that drops to the bottom line.

Everything you need to know about this stock and how to be positioned to cash in on its potential huge dividend is on our members only web site. Call XXX-XXX-XXXX to start your risk-free subscription today!

You would expect to pay a premium price for this kind of information. But you won't for TAIPAN. We set our annual rate for 12 profit-packed issues at only US\$XX.XX. Plus, if you sign up for 2 years (24 issues) your price is only US\$XX.XX. An immediate savings of \$XX.XX.

And this is all protected by my personal, money-back guarantee.

If for any reason you are not 100% satisfied with the profits you are making, I will send you a full refund for all unmailed issues. No questions asked.

TAIPAN will show you how to make huge profits and keep them. You'll see how to profit from the technology that is here now, and coming in the future. You will see how to profit when others see only calamity and trouble. We know this is where the big millionaire-making profits are, and we will track them down for you.

I'm confident you will benefit -- and profit -- greatly when you join TAIPAN. There's only one way to find out how rich TAIPAN can make you -- that is to request your risk-free trial subscription right now.
