# **EXTREME PROFITS!**

Dear Fellow Investor,

Sit back and try to relax.

I'm about to take you on a personal tour of a world you've never visited -- a financial domain where, for those few who really understand it, investment profits that buy cars ... or even houses from a single recommendation ... are the rule, NOT the exception! Here's just one example you could take advantage of right now:

**This \$2 Stock is Now Positioned For A Rise To \$20 Within The Next Year -- 10 Times Your Money!**

In all my years as a market insider, I have never seen a stock so perfectly positioned as this one. In fact, I'm very confident it will make you 10 times your money within the next year.

How do I know? Here are the inside facts on this \$2 stock now:

- ✓ This company is holding \$24 million in cash ... with NO debt. This alone makes the stock worth \$15 a share right now.
- ✓ It has signed agreements with the largest provider in the world for 9 of its properties -- GUARANTEEING this company \$100 million over the next 25 years.
- ✓ Plus, following capital investments of \$12 million over the next 30 months, it anticipates cash flow of nearly \$6.5 million for at least 11 years.

That puts this \$2 stock at \$25 to \$35 within one year from today, but I'll figure \$20 to be conservative. Now, would you like to own a \$20 stock for just \$2? Of course you would!

**Every \$5,000 invested would yield you \$50,000 almost immediately -- with virtually no risk!**

This is what I mean by EXTREME profits. Not 10% ... NOT 20% or even 100%. **EXTREME PROFITS make you 300%, 500% 1,000% and more** -- with very little risk. It's the kind of profit windfall you rarely hear of and NEVER see yourself. It's the kind of investment you would gladly trade every other investment you own to get because NOTHING else can give you this kind of profit.

(go to page 2)

And here's the best part. This is NOT some once-in-a-lifetime opportunity. This is NO gimmick. This is the kind of real profit that is being made by a select group of market insiders EVERY DAY!

**Now I Want To Show You How You Can Make These Same,  
Extraordinary, EXTREME PROFITS Too!**

My name is Paul Sarnoff, and I've spent my whole career cultivating contacts and learning how to make extraordinary profits from manipulated stocks. Some investment writers have said that I know more about making big profits in the stock market than any man alive. I don't claim to be that smart, but I will admit to this:

I'm NOT satisfied making 20% or 30% a year.

I want much more (for me and my friends) than just to beat the Dow. I want to slaughter it.

I like -- no, love -- making HUGE PROFITS where one \$10,000 investment can buy a very expensive new car or even a new home.

This letter is about that passion -- let's call it my devotion to Extreme Profits. In the next few minutes, I'm going to surprise you with some facts about how the stock market really works. Then I'm going to show you how you can grow your own investment portfolio rapidly with this inside information that yields Extreme Profits like these my friends and I have already made:

- |                               |                            |
|-------------------------------|----------------------------|
| ✓ 2,793% PROFIT in 14 months! | ✓ 150% PROFIT in 1 Month!  |
| ✓ 438% PROFIT in 8 Months!    | ✓ 556% PROFIT in 1 Day!    |
| ✓ 493% PROFIT in 16 Months!   | ✓ 350% PROFIT in 3 Months! |

**These High-Stakes Investments Don't Just Break The Rules ...  
In This World Of Extreme Profits, There Are NO Rules!**

You've probably never made profits like this before, because you've never been on the "inside" before. This is a place like no other, with facts and stories that don't seem possible ... a little-known market sector that's so speculative, so outside the realm of ordinary investing, most analysts and brokers don't even know it exists. And those that know of it, avoid it at all costs because they don't have a clue how to make it work. Talk about breaking the rules of investing ... here, there are no rules at all! For example,

**FORGET ABOUT P/E RATIOS** -- some of these companies don't even have any revenue, let alone earnings.

**BOOK VALUE MEANS NOTHING** -- one day these companies can look as extinct as a dinosaur with near-zero book value, and the next they'll be overflowing with cash and assets.

**LONG-TERM VALUE IS A FOREIGN CONCEPT** -- the name of the game in this high-stakes world is "what have you done for me today?" because tomorrow may never come.

---

---

*"Paul, your last recommendation has given me a profit of \$28,150.00! I await your next recommendation ..."* J.G. New York

---

---

Yes, this is a mysterious world of Extreme Profits for those on the inside who know what they're doing -- extreme losses for everyone else.

As with any investment, the key to making Extreme Profits is having the inside track. If you don't understand the game, you'll NEVER make it out alive financially.

To make it in this world of secret dealings and "inside" information -- of high-stakes manipulators and spectators -- it's vital to have a guide who knows it inside and out.

Now you can have the perfect guide to lead you to these extraordinary, EXTREME Profits. It's a monthly bulletin I personally endorse called GSA.

GSA is short for *Gold Stocks Advisory*, The hidden, high-profit market GSA will reveal for you is mining stocks. They are your ticket to Extreme Profits because these stocks can make you a fortune even if the underlying commodity goes down in price!

With GSA as your guide, you'll see exactly how YOU can make these extreme profits I'm talking about. You'll understand how THIS HIDDEN MARKET works, the secret deals that are made, the invisible massive wealth-building. In short, you'll be able to hop on this exclusive gravy train yourself ... GSA shows you exactly when and where to do so.

Are you interested in learning how YOU can make Extreme Profits?

Okay, then let me start with this statement:

**90% of what you read about investing (or hear on TV) is pure bunk.**

Successful investing, as defined by the media today, is all about "making the trend your friend", or buying mutual funds and sitting on them. This is OK advice if you are happy to earn the 9.6% profit the DOW has averaged every year since 1926 -- but it will NEVER bring you the home runs you need to become really wealthy.

For that, you need to step into a different stadium. A place where market manipulation, both by the government and private individuals, is the greatest opportunity for the smart investor to make a killing -- with little downside risk -- and 100% legally.

**How The Secret, 100% Legal World Of Market Manipulation Can Make Huge Profits For You!**

You see, you can only earn grand-slam profits that make you rich from investments that are manipulated ... that involve the government or pow-

erful players intervening and moving the markets in a big way -- fast.

If the idea of market manipulation is news to you, you're not alone. By their very nature, for manipulations to be successful, only a very few people can know about them. That's why most manipulations go unnoticed or undetected.

Here are 5 common Wall Street manipulations that only a small group of inside investors, and readers of GSA, know how to take advantage of:

**#1 "Pump And Dump"** -- Company insiders and large brokerage houses quietly load-up on a stock that will soon announce great news or earnings. When the news hits, they promote it to regular investors ... then sell into this strength for huge, fast profits! Through GSA's network of insider contacts, you will buy early when these insiders do ... sell when the market's worked into a frenzy ... and pocket Extreme Profits like this GSA reader:

**A 53-year-old fashion photographer from Long Island invested \$5,760 and took home \$58,310 -- in just under three weeks! That's a 912% bonanza!**

**#2 Cartel Agreements** -- Most people have heard of OPEC, the cartel that controls oil prices. But most have no idea that there are 6 more cartels that control other investment prices like gold, silver and diamonds. GSA is uniquely plugged into these sources through worldwide contacts. When the inside word is that an investment is ready to move big-time ... GSA is one of the first to know about it. And being first -- ahead of the moves -- lets you buy low and sell high to the masses of hungry buyers. This is how you make Extreme Profits like this reader of GSA:

**A 48-year-old business executive from Hawaii pocketed a 2,400% profit -- \$19,200 CASH -- in just 3 months when his \$800 investment skyrocketed to \$20,000!**

**#3 Brokerage "Turkey of the Week"** -- Many large stock brokerage firms have a "stock of the week" that sales managers force their brokers to sell. Those who sell the most of this stock get big cash bonuses, free trips and the like. These firms have millions of ready-and-willing customers who snatch up these "specials" like they're going out of style. With this kind of pushing, the prices of these stocks can soar within a week! With GSA, you'll know which stocks are the "turkeys" ahead of time. You can make Extreme Profits like this reader of GSA:

**A plastics manager gained \$13,802 on his \$3,286 investment, collecting a 320% profit in slightly more than one month!**

---

---

*"I started off small ... \$350 was all I dared. Six weeks later, I cashed it in for \$1,700! That's a 385% return!" B.W. Ohio*

---

---

**#4 IPO "Quickies"** -- The success of an IPO (initial public offering) is determined 99% by the firm(s) who sponsor it, and how early you can buy. Usually, by the time the public first gets wind of

a solid IPO, the price is already inflated. And as word spreads and market frenzy heats up, these can become TERRIBLE investments. Consider the recent frenzy over Netscape, for example. No, the best time to buy IPOs is WAY BEFORE the public even knows about it. It's when the company insiders are slowly and secretly stockpiling shares at incredibly cheap prices so they can unload them to the public. If it's a secret, how can YOU know about it? GSA uses its underground, insider network to let you know how to buy early like the fat-cats and make Extreme Profits like this GSA reader:

**A 39-year-old art director at a New York ad agency cleared \$9,300 in just 45 days from a mere \$256 investment. That's an incredible 3,533% PROFIT!**

**#5 Man-Made Disasters** -- Much more common than you think, these are disasters that never actually occur or hurt anyone. Examples of this include over-aggressive hurricane forecasts ... anticipated frosts in Florida that never materialize ... expectations of floods and droughts that don't occur. But the fear, panic and hype that accompanies discussion that they MIGHT happen creates Extreme Profits for those who know the truth. GSA alerts you to these way ahead of time so you can cash-in with Extreme Profits like this reader:

**A 48-year-old physician turned \$1,206 into \$9,589 in just 3 months.  
That's 695% PROFIT!**

**Cash In For Extreme Profits With The "Fat-Cats",  
Long Before Ordinary Investors Have A Chance!**

You see, market manipulation by governments and private individuals is the greatest opportunity for the smart investor to make a killing -- with little down-side risk -- and 100% legally.

And the results for you are staggering! It's what enabled me and my GSA readers to ...

Buy Jordex at 70 cents and cash in at \$3.75 for  
**435% PROFIT in 6 months**

Steal Glamis at \$1.00 and cash it in at \$8.88 for  
**788% PROFIT in 84 months**

Grab Barrick at \$4.81 and cash it in at \$32.88 for a  
**596% PROFIT in 96 months**

It's high time investors like YOU get the same opportunities as the insider fat-cats and the high-rollers. Instead of relying on broker tips and media hype, GSA gives you the first crack at "grand slam home run" stocks that can make you as rich as these insiders -- before the general investing public gets this private and well-guarded information.

A classic example is when my investor friends and I made over

**500% profit in less than 6 months.** In this case, the investment was silver. In August, silver was trading at about \$10 an ounce. By January, it had climbed to an all-time high of \$50 an ounce -- a 500% gain. Those who heeded my advice and invested a mere \$2,000 in silver, came away with over \$10,000 in less than six months.

We cashed-in right along with the market insiders when most people never had a chance. Why? Because that wild run-up in price was the result of market manipulation by some very powerful forces, including the Russians, the Arabs, the Hunt brothers, and the General Services Administration of the U.S. government. It had NOTHING to do with real supply and demand.

Only GSA readers and investors like myself with real insider connections ever knew what was going to happen. And we were rewarded with extraordinary profits.

### **You Can Build Massive Wealth From These Extreme Profits**

The Extreme Profit stocks recommended in each monthly issue of GSA come from lots of hard work ... lots of digging ... lots of insider information. Early information. Information most people NEVER hear of that can transform modest investments into huge profits. And this is information that is NOT shared with ANYONE but GSA readers. The results speak for themselves. For example:

For several years, I watched as a prospective company in Mexico -- a real sleeper -- quietly began gathering up property and critical resources while most people were none the wiser. When I recommended it to GSA readers, it was trading for 50¢. Within 4 months, it shot up to \$1.75 -- a 350% gain! **Those who invested \$10,000 walked away with \$35,000 in just four months!**

And just because we're talking about investments that aren't general public knowledge, doesn't mean you're taking increased risk. Quite the opposite. GSA only focuses on high-return/low-risk investments like this:

GSA readers and I made a 75% profit in just 2 months on a little-known stock I recommended. With the inside information our sources provide, we knew there was absolutely no extra risk. GSA readers grew their \$10,000 position to \$17,500 almost overnight!

### **Extreme Profits -- Your Secret Weapon To Double, Even Triple, Your Investment Portfolio Each Year**

I'll be the first to admit that doubling your money each year in a world of 10% and 20% returns

---

---

*“When you spend about \$290 and sell it for nearly \$3,000 a few weeks later, as I've done, it's a magical feeling!” L.W., Iowa*

---

---

is a very ambitious goal. It's one I would not believe possible except that my GSA readers and I do it ourselves so consistently.

And that's the problem. 98% of investors don't believe they can make extraordinary returns, so they don't even try. Or they buy speculative, risky, half-baked investments that are doomed to failure.

In each monthly issue of *GSA*, you will only be be advised to take the safest, most well-researched investments with strong built-in downside protection and upside rewards.

**You may not believe this is possible now, but you would be crazy not to see for yourself, since you don't risk one penny.**

Please read this: If you start with \$10,000 and achieve our goal of doubling your money each year and paying a 30% yearly tax on your profits ...

**... in 5 years you will have \$131,655.00**

**... in 10 years you will have \$1.8 Million**

That's nearly two million dollars for you! And remember: you started with only \$10,000.

This could soon be YOURS because ...

>> You'll find the recommendations in *GSA* include full details so it's easy to decide for yourself if you want to invest

>> You can buy most all of *GSA's* recommendations for as little as \$1,000 each

>> You can make huge profits no matter what the stock market is doing! Our trades do NOT need the stock market to go up for us to cash-in big.

**Money-Back Guarantee: You Make Extreme Profits -- Or You Don't Pay!**

The best part of my offer is that you risk NOTHING -- not one, thin dime -- to see these massive profits for yourself.
